

# OKTRA

Transforming working lives (and hydration).

## Introduction

Oktra is an award-winning office design company with branches in London, Stafford, and Guildford. Dedicated to prioritising sustainable solutions, this company's mission is to strengthen the relationship between people and their environment, drive wellbeing and green initiatives within the built environment and work communities, and to create spaces that inspire people to do amazing things. As one of the fastest-growing, most dynamic SMEs in the UK, Oktra has been listed on London Stock Exchange Group's 1000 companies to inspire Britain.

Recognised by Planet First for consistently reducing the company's carbon footprint over the last decade, Oktra was awarded the Planet Mark for a 34.5% reduction in 2019. They're also certified by Fitwel (the world's leading certification system committed to building health for all) for continuous improvements in supporting the mental, physical, and social health of employees.

We're proud to work with a company that shares Aqua Libra Co's commitment to sustainability.

## Challenge

We've worked with Oktra on many commercial projects, but on this occasion, they were looking for a high-performance hydration solution for their very own office in Farringdon.

The Oktra team wanted their new water-dispense system to be energy efficient, space saving, and a good match for their office décor.

## Solution

The Aqua Libra Co team installed two Aqua illi Taps in stylish Satin Black finish, each dispensing boiling, chilled, and sparkling water.

At one of the hydration stations, the tap features a 60mm extension to enable bottle filling.

*"Aqua Libra Co was our number one choice for boiling, chilled and sparkling water. Not only do the taps look great, they are easy to use, and feedback we have received from our colleagues has been very positive. Personally, my experience with the team at Aqua Libra Co has been brilliant; their customer service is second to none. It's important for us to create partnerships with suppliers who we want to specify in our projects for our clients. We look forward to working with Aqua Libra Co on many projects going forward!"*

**- Katelyn Palmer, Office Manager.**
